

ADISHTI CHARAN TEJA

DATA SCIENCE & PYTHON FULL-STACK DEVELOPER

Mobile: +91 8309998260 | charanadishti123@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Results-oriented Computer Science and Engineering undergraduate with hands-on experience as a Data Science and Python Full-Stack Intern. Proficient in building end-to-end applications, designing machine learning pipelines, and developing interactive data visualizations. Proven ability to translate complex datasets into actionable business insights and deploy scalable web solutions using modern technologies. Passionate about solving real-world challenges through clean, efficient code and collaborative engineering.

PROFESSIONAL EXPERIENCE

Aspire primograd • Data Science Intern

June 2025 – Sept 2025

- Engineered end-to-end data preprocessing pipelines using **Python** to clean, impute, and normalize noisy datasets, enhancing data quality for downstream modeling.
- Conducted exploratory data analysis (EDA) and statistical tests on complex datasets to identify operational patterns and efficiency bottlenecks.
- Constructed optimized **SQL** queries to extract and aggregate business data, facilitating automated monthly reporting and metric tracking.
- Designed and developed interactive **Power BI** dashboards to visualize performance metrics, improving cross-departmental reporting speed and clarity.

PROJECTS

Intelligent Pest Detection & Recommendation System

Python | Streamlit

PYTHON **STREAMLIT** **SCIKIT-LEARN** **OPENCV**

- Developed an end-to-end machine learning solution to detect crop pests and recommend control strategies, achieving **71%** classification accuracy.
- Engineered data preprocessing and image feature extraction pipelines to optimize model training.
- Deployed the predictive model as a responsive, real-time web application using **Streamlit** for seamless user interaction and visual recommendations.

Descriptive Answer Evaluation System

Python | Flask | NLP

PYTHON **FLASK** **MYSQL** **NLP** **TRANSFORMERS**

- Architected an automated descriptive answer grading platform using natural language processing (NLP) to score student responses with high semantic accuracy.
- Designed a full-stack architecture featuring a **Flask** REST API backend and a relational **MySQL** schema for secure assessment and grade management.
- Implemented sentence-similarity ML models to evaluate responses, achieving high alignment with manual grading criteria.

HR Analysis Dashboard

Power BI | SQL

POWER BI **SQL** **EXCEL**

- Designed and built an interactive **Power BI** dashboard tracking critical HR metrics, including attrition rate, tenure, and employee demographics.
- Implemented custom DAX measures to analyze attrition patterns across age groups, education levels, and salary ranges.
- Provided data-driven recommendations that enabled managers to pinpoint turnover hot spots and implement proactive retention strategies.

EDUCATION

B.Tech in Computer Science & Eng.

NBKR Institute of Science & Technology

2022 – 2026 | CGPA: 8.6 / 10

Intermediate in MPC

Srinivasa Junior College

2020 – 2022 | Marks: 844 / 1000

SSC

Viswa Bharathi High School

2019 – 2020 | GPA: 10 / 10

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

Python SQL JavaScript HTML CSS

Java (Basic)

FRAMEWORKS & LIBRARIES

React.js Streamlit Flask NumPy

Pandas Matplotlib

DATABASES

MySQL

TOOLS & PLATFORMS

Git GitHub Power BI Excel

RESTful APIs antigravity IDE CLI

VS Code

CERTIFICATIONS

Data Science Internship

Aspire primograd

Artificial Intelligence Fundamentals

IBM

Data Visualization Experience

TATA (Forage)

Power BI for Beginners

SkillUp

Privacy & Online Social Media

NPTEL

ACHIEVEMENTS

- ★ **Organizing Lead:** Managed logistics, team tasks, and execution for 4,000+ attendees at ECSTATICA-2K26.
- ★ **Project Expo Winner:** Won Certificate of Excellence at Tech Vyuha, NBKRIST.
- ★ **Django Workshop Instructor:** Mentored 50+ students on MVC architecture and routing.
- ★ **Technical workshops:** Participated in advanced training (Java Spring Boot, Swecha, Mexodia).
